

2000 DIJ Research Grant Winners

Kaichi Kida, MD, PhD (The first year of a three-year grant)

Institution: Department of Pediatrics, Ehime University School of Medicine

Title: International collaboration study on risk factors of life-style related diseases and nutrition in childhood

Akiyo Matsumoto

Institution: The National Institute of Health and Nutrition

Title: Exploring new functions of polyunsaturated fatty acids on the gene expression by an advanced technology of DNA chip

Katsumi Imaizumi, PhD

Institution: Graduate School of Agriculture, Kyushu University

Title: Studies on establishing a system to search for biomarkers specific to life-style related diseases

Teruo Miyazawa, PhD

Institution: Graduate School of Agricultural Science, Tohoku University

Title: Nutrition and metabolism of food antioxidants and their biofunctional availability for preventing membrane phospholipid peroxidation as an indication of in vivo oxy-stress

Kayoko Shimoi, PhD

Institution: School of Food and Nutrition Sciences, University of Shizuoka

Title: Screening of food factors for regulation of expression of adhesion molecules on vascular endothelial cells and their action mechanism

Yoshihiro Shidoji, PhD

Institution: Siebold University of Nagasaki

Title: Search for nuclear receptor(s) activated by anti-carcinogenic terpenoid, geranylgeranoic acid (GGA) through application of two-hybrid method

Kazumi Yagasaki, PhD

Institution: Tokyo University of Agriculture and Technology

Title: Anti-glomerulonephritic action of a vegetable food factor and its modes of action
