

2018 DIJF Research Grant Winners

General Researchers Grant

Hisashi ADACHI

Institution: Department of Community Medicine, Kurume University School of Medicine

Title: Does malnutrition predict all-cause death and cancer death during 20-year follow-up study in a community-based cohort?

Yukie HIRAHARA-WADA

Institution: Department of Anatomy and Cell Science, Kansai Medical University

Title: Visualization of bile acid species with environment-induced changes in vivo

Satoshi ISHIZUKA

Institution: Research Faculty of Agriculture Hokkaido University

Title: Verification of preventive effects of dairy products and probiotics on novel models of non-alcoholic fatty liver diseases

Makoto AKASHI

Institution: The Research Institute for Time Studies, Yamaguchi University

Title: Potential contribution of food intake to circadian entrainment in humans

Young Researchers Grant

Shuhei KOEDA

Institution: Hirosaki University Graduate School of Health Sciences

Title: Relationship between intestinal flora and behavior development of Japanese children with autism spectrum disorder

Mariko HOSOZAWA

Institution: Juntendo University faculty of medicine, Department of Pediatrics

Title: The effect of nutrition on the development of social cognition in very preterm children

Keiko KUNITOKI

Institution: Department of Nuclear Medicine and Radiology, Institute of Development, Aging and Cancer, Tohoku University

Title: The Effects of Vitamin D related Gene Single Nucleotide Polymorphism on Healthy Adults' Brain Structure

Yuka NAGATA: Division of Gastrointestinal Pathophysiology, Department of Bioscience, Institute of Natural Medicine, University of Toyama

Title: Improvement of food allergic constitution by food ingredients regulating production and metabolism of retinoic acid
