

2020 DIJF Research Grant Winners

General Researchers Grant

Naoki Saji

Institution: Center for Comprehensive Care and Research on Memory Disorders,
National Center for Geriatrics and Gerontology

Title: Effects of both gut and oral microbiome and protective efficacy of the Japanese diet pattern on cognitive function and orthobiosis in the elderly.

Tsutomu Sasaki

Institution: Laboratory of Nutrition Chemistry, Division of Food Science and
Biotechnology, Graduate School of Agriculture, Kyoto University

Title: Does the continuous usage of non-nutritive artificial sweetener increase the risk for developing life-style diseases by altering cephalic phase response?

Takayuki Ogino

Institution: Department of Gastroenterological Surgery Graduate School of Medicine,
Osaka University

Title: Impacts of food passage on gut flora and intestinal immune system.

Mari Mori

Institution: Department of Health Management, School of Health Studies, Tokai
University

Title: Basic Studies on Evidence-based Food Education for Recovering Healthy
Longevity in Okinawa: Optimum Salted Washoku for Health for All.

Young Researchers Grant

Michiko Furuta

Institution: Section of Preventive and Public Health Dentistry, Division of Oral Health, Growth and Development, Faculty of Dental Science, Kyushu University

Title: Multiple epidemiology studies on lactic acid food contributing to oral health.

Toshiko Takezoe

Institution: Graduate School of Medicine, The University of Tokyo

Title: Energy and nutrient intakes of children with severe motor disability in Japan.

Atsushi Haraguchi

Institution: Laboratory of Physiology and Pharmacology, Department of Electrical Engineering and Bioscience, School of Advanced Science and Engineering, Waseda University

Title: Elucidation of the mechanism of depression caused by disrupted meal rhythm.
